## What is MSF?

MSF, Doctors Without Borders, is the world's leading independent, international medical relief organization, implementing and managing medical projects in close to 72 countries worldwide.

For 50 years, they have provided medical aid to people affected by armed conflicts, natural disasters, disease epidemics, malnutrition crises and other emergencies.

They offer medical and humanitarian assistance to people based on their needs - irrespective of race, religion, gender or political affiliation. They observe neutrality in situations of conflict, and impartiality in the name of medical ethics.

## MEET THE NEW AGGS FOMSF TEAM

As the first and currently only sixth form Friends of MSF committee in the UK, we ensure that we enthusiastically fundraise, raise awareness and support MSF campaigns however we can.

To ensure their independence, the majority of MSF's funding is provided by private donations from members of the public. Additional funding may come from foundations, governments and international institutions. Donate now on their website, [msf.org](https://www.msf.org).

## IMPARTIALITY, INDEPENDANCE, NEUTRALITY
