EDITION 3 ● HUMANITARIAN AID ● AMATTOULLAH ADAMALY ● 16TH JAN, 2023

Fundraiser event:

It is alarming that the UK has announced its donation of only £1 billion, submitting instead to a disheartening 30% decrease from 2019's pledges.

The most obvious consequence of this funding shortfall is a substandard quality of care, which is counterproductive and potentially very dangerous for people with HIV, TB or malaria. Essential elements are left out of the standard package of care, such as tests for measuring the level of virus in the blood, medicines to treat people with opportunistic infections and complications linked to AIDS and adapted paediatric TB care.

GLOBAL FUND APPEAL

As the first and currently only sixth form Friends of MSF committee in the UK, we ensure that we enthusiastically fundraise, raise awareness and support MSF campaigns however we can.

Most recently, MSF has appealed on behalf of the Global Fund for the UK to meet the demand for a 30% increase in donations from the last pledge in response to the 3 major ongoing global pandemics of: HIV, tuberculosis (TB) and malaria.

Donate now, on their website at [msf.org](https://www.msf.org).

IMPARTIALITY, INDEPENDANCE, NEUTRALITY
