What has AGGS FoMSF done to address this?

As President, I wrote a direct letter to Sir Graham Brady, the MP of Altrincham and Sale West, expressing my disappointment in the UK's attitude and urging him to rectify this issue by announcing in the House of Commons the urgency with which the UK must make the additional donations.

I have received a letter from both Sir Graham and Rt Hon. Andrew Mitchell MP, Minister for Development and Africa, which describes the ways the £1 billion, donated by the UK, will be distributed and used to deliver emergency medical supplies to aid in the fight against the global pandemics of: HIV/AIDS, tuberculosis (TB) and malaria.

GLOBAL FUND APPEAL

As the first and currently only sixth form Friends of MSF committee in the UK, we ensure that we enthusiastically fundraise, raise awareness and support MSF campaigns however we can.

Please thank Amattoullah for her interest and support.
With every good wish
You end
Andrew

How is the UK
actively retreating
in its role as a global
health leader?

IMPARTIALITY, INDEPENDANCE, NEUTRALITY

Collectively, MSF have received the united support of: 67 global institutions, health organisations and hospitals which have expressed the UK's disheartening response to this global fight from 2019's pledges.
